MASON LANDERS

Cybersecurity · Network Engineering

Kansas City, MO · (816)-359-7095 · mason.landers@outlook.com · linkedin.com/in/mason-landers

PROFESSIONAL PROFILE

Skilled IT professional with hands-on experience in network engineering, including firewall management, incident response, and network infrastructure. Has trouble-shooted and configured everything for SMB platforms regarding technology. Passionate about solving complex security challenges and committed to continuous learning in this dynamic field.

EXPERIENCE

IT Infrastructure Engineer Tier II | *Conduit Technical Services (MSP)* | Liberty, MO   2021 – 2024

• **Network Deployment & Implementation:** Designed and deployed complete network infrastructures for business environments, including VLAN segmentation, network security controls, and site-to-site VPN implementations.
• **Firewall Management & Configuration:** Configured and maintained firewalls, including Sophos and other security appliances, and managed security policies.
• **Incident Response & Vulnerability Management:** Assisted in detecting, responding to, and mitigating cybersecurity threats, leveraging EDR/XDR solutions.
• **Orchestrated end-to-end IT infrastructure management:** Led the team and achieved exceptional profit margins and led the team in tickets closed by 40%.
• **Cloud & Collaboration:** Deployed and managed Microsoft 365 environments, including Azure AD, SharePoint, Intune, and Teams; supported secure cloud collaboration initiatives.
