MASON LANDERS

Cybersecurity · Network Engineering

Kansas City, MO · (816)-359-7095 · mason.landers@outlook.com · linkedin.com/in/mason-landers

PROFESSIONAL PROFILE

Results-driven network and infrastructure engineer with 2 years of experience in networking, deployment, and operations within MSP and multi-site environments. Proven ability to configure and support L1/L3 connectivity, collaborate with cross-functional teams and vendors, and manage end-to-end secure, scalable network infrastructure lifecycle. Strong knowledge of TCP/IP, VLANs, routing, and field operations support with a focus on performance, uptime, and cost-efficiency.

EXPERIENCE

IT Infrastructure Engineer Tier II | *Conduit Technical Services (MSP)* | Liberty, MO   2021 – 2024

- Network Deployment & Administration: Deployed, maintained, and administered network environments across multiple distributed sites, including WAN and LAN infrastructures, ensuring optimal performance and reliability.
- Troubleshooting & Problem Resolution: Diagnosed and resolved hardware, software, and other network and system issues, minimizing downtime and maintaining business continuity.
- Root Cause Analysis: Participated in root cause analyses on incidents, identifying preventative actions to mitigate future occurrences and implementing necessary solutions.
- Documentation: Created, reviewed, and updated technical functional specifications, low-level network solutions design documentation, and operations guides/runbooks, ensuring accuracy and currency.
- Security & Compliance: Conducted firewall access reviews, managed Multi-Factor Authentication (MFA) enrollment audits, and enforced encryption policies to uphold network security standards.
